

"LONG" JONES TAKES A HAND

There Will Be No Let Up in Fight Against La Follette.

ONLY JUST BEGUN

Republican League Will Push Work of Campaign with All Its Vigor.

NO CHANGE OF PLANS

Milwaukee, Wis., April 29.—There were rumors today to the effect that in a short time there will be some interesting developments in the factional political campaign in Wisconsin. It is said that when they come they will put an end to all talk of compromise and about the Republican league letting up in its fight against Governor La Follette.

Senator Bissell, who has spent nearly all his time at the headquarters of the league, in the Herman building, will hereafter devote three days of each week to visiting various parts of the state, and in his absence Senator Julius Roehr, president of the league, and Senator "Long" Jones, of the advisory committee, will be at headquarters to look after the interests of the members and to meet and to talk with callers.

Only begun its work. "The league has only begun its work," said Colonel J. Starkey last night, "and we intend to keep up the fight for the principles for which we have long contended. Little has been done in the way of visitation by the officers of the league, and it is now proposed that Senator Bissell, shall call upon several people who are now unable to come to Milwaukee. Our plans have not been changed in the least, except that if such a thing be possible we shall make the fight more vigorous. We believe that things are coming our way rapidly as the campaign progresses, and we are elated." Senator Jones will look after Senator Bissell's work in the Milwaukee office three days in the week.

"Long Jones" Will Take Part. The fact that "Long Jones" is to take an active part in the work of the league will set at rest the reports circulated some time ago that he had withdrawn. The former Illinois politician, who is now a member of the Wisconsin legislature, was at the office of Senator Bissell this afternoon, but had nothing to say beyond making the mere statement that he would hereafter spend some of his time at the headquarters while Senator Bissell is out in the state, there has been no change in management whatever, as Senator Bissell will continue in charge and be present in his office a part of the time. To Counteract Machine Workers. Since the very commencement of his campaign Governor La Follette has employed his game warden, oil and factory inspectors and other officials engaged in traveling about the state in attempting to build up his machine. From this time on it is the intention of the league to counteract this work, and Senator Bissell has planned to visit the different localities where the game warden have had full and undisputed sway. In every respect the league work will be carried on with vigor, and those republicans who have been inclined to be misled by the reports that the

DEATH OF SOL SMITH RUSSELL; POPULAR ACTOR PASSES AWAY

He Had Hosts of Friends All Over the Country, and Was a Great Favorite for Many Years--Has Made Many Plays Famous.

Washington, D. C., April 29.—The remains of Sol Smith Russell were removed today from the Hotel Richmond to the residence of his brother-in-law, Fred Berger, where the funeral services will be held tomorrow. Mrs. Russell, who has borne up remarkably well, is receiving hundreds of telegrams of sympathy.

Washington, D. C., April 29.—Sol Smith Russell is dead. America's greatest comedian, whose name was a household word in every city and town between the Atlantic and the Pacific, where his winning personality and genial nature had won for him hosts of friends and admirers, departed this life at the Richmond hotel at 2:10 o'clock yesterday afternoon.

Mr. Russell died of a slow paralysis, from which he had been a sufferer since January 6, 1900, when he was stricken at the Grand Opera House, Chicago. He had been able to go about in a wheeled chair till last Thursday, when there was a decided change for the worse, and he rapidly declined till the end came today. At the bedside were his wife and daughter, Lillian A. Russell and Frederick G. Berger, for many years his manager and partner. The funeral will take place tomorrow at the residence of Mr. Berger. It is understood that interment will be at Rock Creek cemetery.

opposition to La Follette was seeking for opportunities to compromise him will have a chance to see how little basis there is for these reports.

An Active Campaign. When asked yesterday concerning the plans of the league Senator Roehr said:

"There has been no foundation in fact for these stories which have appeared in some of the Milwaukee papers concerning the league. There has been no disposition on the part of anybody in any way connected with the league to abandon the program originally laid out. The fight has been conducted so far along the lines, which the situation made, and in spite of all the talk the league has never deviated from the program which it mapped out for itself. The work has been necessarily of a preparatory character, and as the time for the active campaign is approaching there will have to be still more vigorous work."

IMPORTANT BILLS BEFORE ROOSEVELT

The Chinese Exclusion and Oleomargarine Measures Awaiting the President's Signature.

Washington, D. C., April 29.—Two important bills, each of which has been the subject of protracted debates in congress now only, await the president's signature before becoming laws. They are the Chinese exclusion and the Oleomargarine bills and the former measure becomes operative as soon as the president approves it and as the existing laws on the subject of exclusion expire by limitation the president is urged to sign without delay so that the treasury department may have time to notify all of its agents of the facts

BILLION DOLLAR PACKING TRUST; WOULD END BEEF PROSECUTION

Combination of Vast Size Predicted if the Federal Injunction Now Sought is Secured--Would Avoid All Liability to Sherman Anti-Trust Law.

Chicago, Ill., April 29.—A billion dollar packing trust is among the possibilities of the United States government should succeed in maintaining its contemplated injunction proceedings. The prediction was made in LaSalle street financial circles yesterday that the large packers who may be made defendants in the federal court will be forced formally to combine if the prosecution against them under the Sherman anti-trust law should be successful.

The combination would be formed along the lines followed by the United States Steel corporation, and would be made to comprise practically all the beef packing companies in the country. In the formation of such a combination all the powers now denied the packers, with one exception, could be legally exercised. The single exception, in the opinion of corporation lawyers, would be the adoption of an arbitrary and unreasonable schedule of prices.

If such a combination should be effected the present owners of the large plants would receive stock in the trust based on the yearly profits of their plants. The annual business of the six largest packing firms aggregates over \$500,000,000.

The firms which naturally would

MAKE EFFORTS TO PACIFY DAHLE; ALARM FELT BY GOV. LA FOLLETTE

The Underhanded Effort to Defeat the Congressman for Renomination Has Caused a Serious Defection in Governor's Ranks in Dane County.

Milwaukee, Wis., April 29.—A dispatch from Washington says that C. E. Buell, assistant attorney general, is there from Madison to see Congressman Dahle in Gov. La Follette's interest.

He confirms the stories that are in circulation in political circles in Milwaukee that the Dahle matter has caused a panic in the LaFollette ranks. Dahle was one of the most intelligent and courageous supporters that the governor had, and his defection is a much more serious matter than is generally understood at this time. It is generally understood, well informed politicians say, the outcome of the Half-Breeds' fight in Dane county is very doubtful.

The trouble has been aggravated by an article which appeared a few days since in the Madison Journal, the Half-Breed organ at the state capital. It was one of the most insulting and contemptible political screeds that was ever directed against a public man in Wisconsin, and men who know Congressman Dahle intimate that when he comes back home, he will probably take the only course open to answer such an

FEDERATION WOMEN BOUND WEST; WILL AVOID THE COLOR FIGHT

Mrs. Stanwood of Illinois, Calls a Caucus On the Train in Which It is Decided To Hold Aloof from the Factional Strife.

San Antonio, Texas, April 29.—The Illinois Federation of Women's Clubs will take no action as a body in the color line fight in the general federation's biennial at Los Angeles.

That much has been decided. The Illinois federation will maintain its attitude of ignoring the question, and if opportunity presents will strive to secure a compromise in the National federation. While ignoring the question as a federation, the individual clubs are set in their views, the majority of delegates on the official train are against the proposition of admitting negro women, and will so vote if the question comes to a direct issue, but they hope it will not.

The delegation on board the train was swelled, some Georgia and Louisiana delegates joining the party and two Illinois delegates who left in advance. There are now 115 women on the train, and still two men. The two men have retreated to the rear platform, and are holding out valiantly. The official train has been headed west all day, running through the plains of Texas. The delegates climbed out of their berths this morning in time to see Beaumont and the oil fields.

During the morning Mrs. Stanwood, president of the Illinois delegation, called a caucus of all delegates in her car. Mrs. Selee Perry, Mrs. E. G. Lambert and Mrs. D. W. Law were appointed to draft resolutions thanking Mrs. L. T. M. Slocum, chairman of the transportation committee, for her selection of the southern route, and for her work in arranging for the trip. The resolutions also thank Frank S. Bishop, who is in charge of the party.

SUMMON PACKERS TO COURT

Missouri Attorney General Asks for Hearing Under Anti-Trust Law.

Jefferson City, Mo., April 29.—Attorney General Crow filed a petition in the supreme court asking that C. W. Armour of the Armour Packing company, J. C. Dold of the Dold Packing company, O. W. Waller of Swift & Co., Gus Blachoff of the St. Louis Dressed Beef and Provision company and Walter Pfeiffer of the St. Louis Butchers' union be summoned under the state anti-trust law to appear in court May 10 and submit to examination as to their knowledge of an illegal combination to fix the prices of beef.

CARPENTERS PLAN TO STRIKE MAY 1

Beloit Union Wants Nine-Hour Day, 11 Per Cent Increase in Wages and Jobs Unionized.

Beloit, Wis., April 29.—The carpenters' union today gave emphatic notice to the contractors that they will strike May 1 unless their demands are met. They want nine hours a day, an increase of 11 per cent in wages and all jobs unionized. The bosses say they will pay the wages, but they will not yield in the matter of hiring only union help. There are one hundred jobs under way so a strike would be serious.

SILVER SERVICE FOR SCHLEY

Presented by Senator Turley on Behalf of Tennessee Admirers.

Memphis, April 29.—Owing to rain the street parade in honor of Admiral Schley was abandoned. In the afternoon, at the auditorium, the admiral was presented with a silver service contributed by his admirers in Tennessee and adjoining states. The speech of presentation was delivered by former Senator Thomas B. Turley. At night the admiral was the guest of honor at a banquet at the Gayoso hotel, and a committee of women entertained Mrs. Schley.

Marquette Deal.

Marquette, Mich., April 29.—Alger, Smith & Co., who operate a large saw mill at Grand Marais, Mich., have just sold 23,000,000 feet of high grade lumber to eastern parties. The consideration is in the neighborhood of \$600,000, making the deal the largest lumber sale of the year in the Lake Superior region.

Congressman's Brother Hurt.

Danville, Ill., April 29.—William P. Cannon, a brother of Congressman Cannon, while attempting to adjust a window shade in his office, slipped and fell from the window ledge to the floor. His left hip was broken in two places, and physicians fear he sustained internal injuries.

Venezuela Changes Mint.

Caracas, Venezuela, April 29.—The Venezuelan government has decided to use the mint at Washington, instead of the Paris mint, as formerly, for the coinage of bolivars (silver coins worth about 20 cents). About 2,000,000 bolivars are to be coined.

Choate Open to Social Season.

London, April 29.—The social season, which is expected to be one of the most brilliant London has ever known, had for its opening event a reception given by Ambassador Choate at the Carlton House terrace. It was probably the largest gathering of this nature ever assembled with an American representative as the host. More than two thousand invitations were issued.

GAME LAW IS RIGIDLY ENFORCED; EFFECT ON GAME IS EASILY SEEN

Fish and Fowl and Animal in Wisconsin Lakes, Fields and Timber, Closely Protected, Will Furnish Good Sport in Their Legal Season.

Madison, Wis., April 29.—There are now forty-five game wardens in Wisconsin, all paid a salary, and they have become a terror to the hunters who break the law. The other day a man who had violated the fish statute caught sight of one of the wardens, rushed off to a justice, pleaded guilty and had paid a fine of \$25 before the warden got in speaking distance.

The fish wardens confiscated a net, and when they were at dinner the owner stole it. He was chased to a lumber camp, arrested, brought back and fined \$1 and costs, the latter amounting to \$19.64.

The wardens have broken up unlawful fishing on Lake Winnebago. Where formerly 125 barrels of fish a week were shipped from Oshkosh, there are now less than five barrels. Some illegal shipments of game have been found in egg cases, the game concealed in the eggs and in like manner the deception has been practiced in butter tubs and in barrels of turnips. Chief Deputy Nelson says that game has been shipped in every way save in a coffin. Great aid has been rendered the wardens by legitimate shooters and shooting clubs.

CYCLONE RAZES A TEXAS TOWN

Fifteen Persons Killed and Forty or More Were Injured.

TOWN OF GLEN ROSE

Tornado Struck Early in the Morning, and Swept All in Its Track.

APPEAL FOR RELIEF

Fort Worth, Texas, April 29.—Glen Rose, the county seat of Somervell county, was almost wrecked by a cyclone. The cyclone came from the northeast, and its path was over five miles wide. At least fifteen persons were killed and it is believed that the number of dead will largely exceed this figure. The known dead are: Mrs. Carl Millam, the Rev. James Ford, two-year-old daughter of Judge Millam, Miss Mary Connell, a young man named Musgrove, T. M. Allen, Mrs. George Gage, Mrs. Henry Lewis, four members of Jesse Millam's family, three members of Carl Millam's family.

A fire broke out after the storm had wrecked the town and four business buildings and several dwellings were burned. Some of the victims were killed by falling debris and others were burned to death.

On account of the wires being down, little information from the wrecked town could be had last night. The names of only seven of the injured are given. They are Carl Millam, Mrs. Lee, a child of Thomas Price, Mrs. Shield, H. H. Lewis, C. A. Millam and R. E. Lewis.

Glen Rose is on the Paluxy river, in a valley. Meager information states that reports reach Morgan that many were killed down the river below Glen Rosa.

Wind Wrecks Everything. The storm left a path of devastation five miles in width. It came from the northeast and swept down the valley of the Paluxy river, on which Glen Rose was situated. Scarcely a vestige of vegetation remains in the wake of the storm, but the whole path is strewn with debris of wrecked buildings, uprooted fences, and uprooted trees.

Glen Rose is situated on the Paluxy river in a valley. The cyclone came down the river bottoms and swept everything before it. From meager information received it seems that after a day of oppressive sultriness a dark cloud gathered to the west and almost without warning rushed over the western part of the town, literally wrecking everything, the storm passing on to the northeast. It was accompanied by hail of extra large size and a deluge of rain.

The list of wounded, estimated at forty, is very imperfect.

NO DOUBT ABOUT A CORNER IN EGGS

Chicago, April 29.—Recent rumors to the effect that the packers would attempt to corner eggs was substantiated today, when the buyers for the alleged beef trusts went into the market and bought everything in sight, also placing orders for future delivery. Dealers say it is the intention of the packers to put eggs into cold storage until next winter when they will be able to sell them for high prices.

Dennis Hayes is in Chicago today on business connected with the Cement Post factory.

Want Union Recognized.

Beloit, Wis., April 29.—The carpenters here threaten to strike May 1 if the contractors do not recognize the union.

The News From County Towns.

MILTON.

Milton, April 29.—At 10 o'clock Saturday night the fire alarm rang and in quick order the department was on duty. The fire was in the Cottage Hotel barn and was discovered by E. A. Holmes and George Holmes, and George Jackson, the latter giving the alarm and the latter entering the barn and removing the live stock. The fire was confined to the upper floor and the hay therein made the smoke so dense that the firemen were obliged to crawl on the floor to get at the fire. Chemicals were used at first, then Chief Hansen flooded the floor with water and in a few minutes had it under control. The fire got through the building in one or two places, but the damage was slight. Had the barn been burned, that portion of the village would have been swept away, including the blocks of Dunn Boss & Co., and W. B. Maxson, Cottage Hotel and many other buildings. Mr. Fross was in the barn at 6:30 p. m., fed his horse and locked up, but when Jackson saw the fire and found the front door locked, he went to the rear and that door was open, the staple having been pulled. There are three places on the upper floor that show where the fire had burned and between them places that were not burned, indicating that the fire was the work of an incendiary. Tracks were found in the soft ground leading to and from the rear door and made by a person who walked rather than ran. This is the third fire that has been started by a fire bug and it is becoming a serious matter to property owners in this village. A night watchman is a necessity that cannot safely be dispensed with much longer.

Here's what we tried to say in Saturday's items: The Thoroughbred flat has gone forth, if you are a candidate for postmaster, sheriff or congressman, the "Bobbies" are "agin you," unless you bow the knees to Bob. The Paster ring so called, never had the nerve to dictate in local or county matters, in its palmy days, but the LaFollette machine is the worst ever and people are beginning to realize the fact.

Police After Beer Bottles. Chief and Officer Brown, went to Abraham Benes' junk store on South River street Saturday evening after a load of beer bottles belonging to the Val Blatz Brewing Co. that had been stolen by boys and sold to Benes. The officers had a lively time for a while trying to get the bottles and it was necessary to start Benes for the lock-up before he would stop fighting. The women members of the family took a hand in the fracas and for a while with water, mud, dish pans and other things, made it lively for the officers and spectators. They finally secured the bottles and drove off.

OLEO MEASURE PASSES SENATE

Measure Has Undergone Many Changes Since Its First Appearance.

RENOVATED BUTTER IS HIT

Placed in the Category as Butterine, with a Tax of 10 Cents a Pound and Heavy License for Those Who Make and Handle the Product.

Washington, April 29.—The oleomargarine bill has finally passed congress and goes to the president for his approval. It is expected he will sign it. The senate accepted the house amendments to the senate bill. The measure as it leaves the capitol is not recognizable by its original authors. The dairy interests commenced an agitation several years ago to have a tax placed upon oleomargarine that would prevent its sale as butter. The house passed such a measure last session, but it failed to receive consideration in the senate. This session the oleo bill of last session was reintroduced, and again favorably reported. While pending in the house, its opponents secured a renovated butter amendment. It went to the senate in this form, where it was further amended, and after several conferences the two houses reached an agreement.

The bill, as it goes to the president, not only relates to oleo, but also to butterine, imitation, process, renovated or adulterated butter, and imitation cheese, and all other substances in the semblance of butter or cheese not made exclusively of pure and unadulterated milk and cream. It removes such imitation products from the operation of the original package decision and makes them subject to the laws of the state into which they are transported and offered for sale.

Probably the most important section is that imposing a tax of 10 cents a pound upon oleo artificially colored to look like butter of any shade of yellow. It has been repeatedly claimed that this tax will drive the oleomargarine manufacturers out of business. Oleo free from artificial coloring is taxed by the bill one-fourth of 1 cent a pound. Any person who mixes with oleo any artificial coloration that causes it to look like butter is defined by the bill to be a manufacturer and subject to the tax imposed upon manufacturers.

NAVAL APPROPRIATIONS.

Bill Reported by Committee Carries Third Less Than Asked For.

Washington, April 29.—The naval bill filed by Chairman Foss provides for an appropriation of \$77,659,386, slightly below the appropriation of last year. In the report accompanying the bill Chairman Foss shows that the total number of vessels in our navy, built and building, is 133, and that the total cost will be \$235,082,209. Comparatively few of these, he says, are of any real fighting value, and adds: "Our naval prowess lies almost entirely in our eighteen battleships, eight armored cruisers and twenty-one protected cruisers. The rest of our ships would cut but little figure in actual war."

Concerning new ships for our navy the report says: "The committee recommends that for the purpose of further increasing the naval establishment of the United States the president have constructed two first-class battle ships, carrying the heaviest armor and most powerful ordnance for vessels of their class upon a trial displacement of about 16,000 tons, and to have the highest practicable speed and great radius of action, and to cost, exclusive of armor and displacement, not exceeding \$4,212,000 each; two first-class armored cruisers of about 14,500 tons trial displacement, to cost, exclusive of armor and armament, may be found the most advantageous not exceeding \$4,659,000 each, and two gunboats of about 1,000 tons trial displacement."

"The complete cost of the two first-class battleships, two first-class armored cruisers and two gunboats, with total tonnage of 63,000 tons, will approximate \$29,500,000."

The bill also provides for a board of naval officers to recommend a site for a naval training station on the great lakes, an increase in the enlisted force of the navy by 3,000 men, provisions for a new navy ration as reported by the naval board, an increase of the number of cadets at the naval academy by 500.

It is not improbable that Chicago may be found the most advantageous site for a lake naval station.

Agree on Exclusion.

Washington, April 29.—The conference on the Chinese exclusion bill have reached a complete agreement on the bill. It strikes out that portion of the senate bill limiting the extension of all existing laws to the life of the present treaty, and re-enacts them so far as is not inconsistent with treaty obligations until otherwise provided by law. It also extends the laws to island territories so far as applicable. It allows Chinese to enter for exposition purposes and retains the provision regarding certification in the Philippine Islands. The report was presented to the senate and agreed to.

Show to Increase Deposits.

Washington, April 29.—Secretary Shaw said that on May 1 he would increase the deposits in national bank depositories by \$3,000,000 or \$4,000,000. He also will designate a few additional

depositories. It is understood that no further increase in deposits will be made after May 1, as the repeal of the war revenue act is expected to result in a sharp decrease in the government receipts from the beginning of the fiscal year, when the law will go into operation.

Columbia Objects to Minister.

Washington, April 29.—Charles Burdett Hart, United States minister to Colombia, has been declared persona non grata by the Bogota government. Official notification has been given to the president that Colombia finds herself unable longer to treat with Mr. Hart, and she desires that another citizen of the United States be accredited as minister in his place.

Recognizes Monroe Doctrine.

Washington, April 29.—Ambassador White reports Emperor William of Germany as saying in reference to the Monroe doctrine: "I have no intention of acquiring even the smallest island in the western hemisphere."

Singer Strike Ends.

South Bend, Ind., April 29.—The long Singer strike is off, and the 1,750 employees of the sewing machine works went back to work yesterday morning, after being out ten weeks. The men struck for an advance of 2½ cents per hour in wages. Manager Pine refused to employ again many of his oldest men, because they were leaders in the strike.

Stock Farm Destroyed.

Dixon Ill., April 29.—All the buildings and stock on the Charles M. Burkett farm, one mile south of this city, were destroyed by fire. Loss, \$15,000; insurance, \$4,000.

Explosion Kills Three Marines.

Rome, April 29.—During gun practice on the British ship Formidable near Magdalena Island a gun burst, killing three marines.

"DEAR MRS. PINKHAM:—I suffered four years ago with a tumor in my womb, and the doctors declared I must go to the hospital and undergo an operation, which I dreaded very much and hesitated to submit.

"My husband consulted an old friend who had studied medicine, although he was not a practicing physician, and he said he believed that Lydia E. Pinkham's Vegetable Compound would cure me. That same day I took my first dose, and I kept it up faithfully until twelve bottles had been used, and not only did the tumor disappear, but my general health was very much improved and I had not felt so well since I was a young woman.

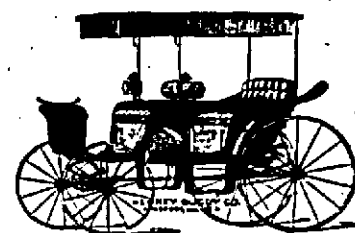

"As I have suffered no relapse since, and as I took no other medicine, I am sure that your Compound restored my health and I believe saved my life."—MRS. D. ARNOLD.

Her Majesty's Corset . . .

.. One Dollar ..

I TOOK A LOT OF SCHEM- ing and planning to devise a Corset worthy of the name of "Her Majesty's" that could be sold for \$1. This name has been for years syn- onymous with all that is good in Corset making, and it is only reason- able to suppose that the makers would not, at this late day, turn out a Corset that would injure their reputation. From what we know of

Corsets we believe that this new dollar stay will add to "Her Majesty's" reputation most decided- ly as it is about the neatest, handsomest Corset that has ever been produced to sell at so low a price.

'Her Majesty's,' The New Dollar Corset.

When we talk of Her Majesty's Corset you are bound to think of the cost being somewhere around \$2.75 or over, but here is a Corset from the same factory in which the higher grade Corsets are made, from the hands of the same workpeople as make the more costly Corsets, yet the price is to be only \$1. This is mighty good news for everybody who likes everything about Her Majesty's Corset but the high price.

SPOONER BEFORE LA FOLLETTE

"In fact, we are inclined to think that every fair-minded citizen will look upon the continuance of the senator in office as more vital to the public good than the re-election of the governor. It is much easier to find timber for a governor than for such a senator as John C. Spooner."

The above quotation is from an editorial in the Oshkosh Northwestern of last Sunday devoted to Senator John C. Spooner. The paper recognizes the ability of Senator Spooner, and claims that the republican convention should endorse him, venturing the statement that 75 per cent. of the republicans of the state favor his reelection.

This argument is all right so far as it goes, but coupled with it is a demand for the re-nomination of Governor LaFollette. The Oshkosh paper is the only republican paper of any prominence in the state, that has not long since recognized the fact, that Senator Spooner would succeed himself. This tardy recognition, does not endow the paper as an oracle, or entitle it to much party prominence.

Of course Senator Spooner will be re-elected. That fact has been apparent for months, and however slow the LaFollette press may be in recognizing it, nothing will be effected by either open opposition or indifference. The Northwestern is to be congratulated for coming out from cover, even so late in the day, so far as Spooner is concerned, but it is gaining neither glory nor political reputation, by persistently advocating the re-nomination of Governor LaFollette.

The paper must have the good sense to realize that harmony and the governor do not train in the same class. The men who are closest to him are only in harmony with him when they agree with him. He is a dictator of pronounced type, and this fact is so apparent that it is conceded by his supporters. He has been tried and found wanting as a harmonizer and there is nothing to show in his record as governor, in the way of accomplishment.

It may be argued that he was handicapped by a legislature, not in sympathy with him. Who was responsible for this lack of sympathy? Certainly not the legislature. It is idle to claim that when the majority in any organization are opposed to a leader, the leader is infallible, and yet these are the conditions and this was the attitude of the governor, toward the people's representatives. The party can never harmonize under LaFollette's leadership. It may be coerced, but that simply means rebellion. The Northwestern does well to endorse Senator Spooner at this late date. It will take another step in the right direction, when it lines up with conservative republicanism, and the paper will feel a good deal less like an orphan, than it does today.

NOT FOR HARMONY.

It is worthy of note, that in the little flurry for party harmony, that has disturbed the atmosphere during the past few days, that the governor's recognized organs are not discussing it to any great extent. While they are guarded in what they have to say about Senator Spooner, they are emphatic in urging the claims of the governor. The Milwaukee Free Press, which is supposed to be close to the throne, has the nerve to claim that the Governor has no aspirations, but is simply actuated by a desire to stand in the breach and save the party from premeditated destruction. The paper discourses thus fluently on the governor's lofty ambitions:

"Gov. LaFollette believes in direct nominations of all candidates for office, under the Australian ballot, as a means to overthrow a system that is undermining representative government, and as a means to destroy the political machine which now stands between the voter and the official, and which makes the official the servant of the machine instead of the public. He believes there is no ground for compromise here."

"Without the expectation that he would do something for the accomplishment of more equitable taxation and a better system of nominations Gov. LaFollette would not have been a candidate two years ago and would not be a candidate now. The party managers were against him then. They are of course against him now, but the people believed in him then and the party managers had to give way. They will have to give way again."

What a Moses he is, and how unselfish. Will some one kindly explain how long he has been annoyed by these lofty ambitions? What stirred him up six years ago to jump into the arena on short notice and what move prompted him four years ago, when his campaign was largely composed of an attack on Governor Secor, to memory of the Free Press is supposed to be retrospective. It is very much in the way of his bank on, but there are a few with which the public are familiar, that entered into the warp and the woof of republican state politics, before the Milwaukee organ was born, and one of them is the fact that the Governor has been a disturbing element, ever since he retired from congress.

The Governor may not be a partisan. He may be fired with holy zeal and lofty ambition. He may think that the part which has honored him is going to the dogs and that he is the only man in the state who can prevent the catastrophe, but the symptoms are all against him.

If the republican party was composed of a lot of school boys, they might be herded in a jack yard somewhere, and if carefully guarded, the most of them would be present at roll call, but the party is composed of able bodied men, who have but little time for predagogs, or school room discipline. They do their own thinking, and are reasonably independent when it comes to action. They are fairly well acquainted with the governor, both at long and short range and he fails to inspire them with confidence.

As the campaign progresses, they are discovering that LaFollette and harmony are an impossibility, and that LaFollette and Spooner are equally impossible. They recognize that Spooner and Whitehead harmonize, and that when these two men are selected, that a foundation for permanent peace will be established, and that on this foundation the party can successfully build and prosper.

THE DWINDLING CHINESE.

It is not at all probable that any considerable number of respectable people in the United States want to see our doors thrown open to the swarming millions of China who would like to come here. It is easy enough to denounce the policy of Chinese exclusion as unfair, the outcome of ignorance and prejudice, the philosophy of the "sand hills"—but were unrestricted Chinese immigration to be permitted, even the bitterest of the anti-exclusionists would hardly dare "stand for" the consequences of it.

Still, there is little in the situation to warrant anything more harsh or drastic than the provision of law under which immigration from China is now controlled. Senator Gallinger of New Hampshire last week, presented the most convincing argument that has yet been advanced in favor of Chinese exclusion, as at present maintained, when he pointed to the census record. Twelve years ago, before the enactment of the Geary law, we had 107,488 Chinese here in the United States; in 1900 their numbers had fallen away to 89,863. In the case of California, where the question is a vital one, there was in 1890 a total of 72,472 Chinese in that State; in 1900 there were only 45,753.

Under the existing laws our Chinese population has fallen off 16 per cent. for the entire country; in California, it has fallen off 36 per cent. Really, the most ardent advocates of Chinese exclusion could ask for anything more effective than that.—Financial Review.

TO BE REGRETTED

The new Janesville evening daily announced last night that it had suspended publication. The Gazette may be accused of insincerity, but the paper was not that Mr. Harmon, the proprietor of the new venture, is entitled to sympathy. He enjoys the reputation of being an honest, up right citizen, and his brief business experience in Janesville, sustains the reputation. He was evidently the victim of misplaced confidence when he selected Janesville as a location and the men who influenced him merit severe criticism. From a business standpoint there is no room for a third daily paper in Janesville. The cheapest four page daily that can be produced, costs \$25 a day, and a paper like the Gazette, which is far from ideal, costs three times that amount. The man who starts a daily in a town the size of Janesville wants at least \$25,000 and with that amount nothing but time and patience will put it on a paying basis.

So far as politics is concerned that sort of capital or support is as thin as blue sky. In every community are found a few disgruntled citizens who are dissatisfied with the local press, and they are loaded with hot air for any man who can be induced to stare an organ for their benefit. There happens to be a handful of this class of men in Janesville at present who are shouting for LaFollette. Most of them have some sort of a grievance in which the public is not interested. The whole outfit wouldn't furnish money enough to run a newspaper for a week. They are perfectly willing that Mr. Harmon should invest his time and money, but if he fails to win, it isn't their funeral.

Mr. Harmon is undoubtedly sincere in his admiration of Governor LaFollette. He has a perfect right to his own convictions, and no one will object. He has discovered that all publishers of party papers discover, that politics is absolutely destitute of financial support. People buy a paper for the news and not on account of its political leanings. Merchants patronize it for advertising only when it is thoroughly established and can show results. They care nothing about its political bias. Mr. Harmon will have the sympathy of Janesville people.

While there is no organized effort in the first district against Congressman Cooper, there is a heavy ground swell that is liable to be disturbing. The genial congressman does not seem to recognize the fact that Rock County has a candidate for governor, and that he is under some obligation to the County. If he can control his own County however the chances are that he will be given another term without serious opposition.

A man by the name of Lyle, a real estate dealer in Ripon, is gaining some notoriety, and a good deal of cheap advertising, by advocating a tax reform law, with the following sentence for a text: "No evidence shall be allowed in court to recover property that has not been taxed." This according to the Ripon "Enthusiast," will prove a panacea for all ills. Better leave it to the tax commission.

It would be difficult for General Funston, or any one else who had endured the hardships of the Philippine service, to refrain from expressing an opinion on the men at home who were in sympathy with the rebels. It is generally conceded the war was prolonged by American influence with mandoline sentiment.

Jenkins Lloyd Jones took occasion last Sunday to compare Funston to the Jonah of bible times and the Philippine Islands to Nineveh of old. The comparison was a little far fetched. The Reverend Gentleman must be troubled with corns, and Funston may have discovered them.

Carrie Nation was in Chicago Sunday, but without her hatchet. She was refused admission to the Salvation Army barracks, and was obliged to lecture on the street. There seems to be a limit to endurance even in Chicago.

The southern senators are sustaining their reputation. Tillman is ready to fight at the drop of the hat, and Money seems to be prepared for any emergency. The need of Southern education is not entirely confined to the colored race.

If beef continues to advance, it won't make much difference to the average mortal whether it is on the hoof or on the hook. The former might be a little hard to capture, and the latter is already out of reach.

If the hen is cornered and the egg bottled up, how does it effect the market on incubators? There ought to be something connected with the outfit to escape contamination.

With J. Pierpont Morgan at large on the high seas, and Yerkes turned loose in London, congress will do well to go slow on the ship subsidy bill.

Unusual activity on the part of game wardens, has not effected the price of carp.

PRESS COMMENT.

Milwaukee Journal: The governors' lieutenants are trying to soft-soap Congressman Dahle, but have not paused in the fight against his re-nomination.

Milwaukee Sentinel: According to the Madison Journal, Representative Dahle should be severely censured for declining to act the part of the lamb while Governor LaFollette plays the role of the butcher.

Evening Wisconsin: What could be funnier than the figure cut by a politician howling for harmony and insisting that all the other fellows who desire harmony shall get over on his side.

But the league does not seem to be worrying much. It has enough faith in the people of Wisconsin to firmly believe that the good old state will not be allowed to go Populistic. Whitehead will win and Spooner will be returned to the senate.—Tomah Herald.

Fond du Lac Reporter: A Country banker, after carefully looking over the diploma of his son, who had just graduated from a law college said: "Young man if you know how old as much when you are 50 years old as you think you know now, you will be the brainiest man this world has ever produced."

The Milwaukee Journal has gone into a trance over the announcement that the president is desirous of having Senator Spooner returned to his present position, and drawing on its prophetic vision professes to see that the affair will prove a boomerang. Pahaw! A boomerang of this nature would be no harmless thing the president would have no difficulty in catching it between his teeth.—Fond du Lac Commonwealth.

As a business proposition it is mighty small potatoes for a United States Senator to get into a cutting scrape over a five-cent street-car fare. The notoriety which Senator Money has secured, would be of little advantage to him if he hailed from any other state than Mississippi.

FAILED TO KEEP THEIR PLEDGES

The Janesville Daily News
Suspended for Lack
of Support.

WAS NO NEED OF IT

La Follette Sentiment and
Backing in Rock County
Not Very Enthusiastic

EDITOR WAS MISLED

The Janesville Daily News suspended publication last night after a six weeks' run in this city. The paper was called a LaFollette organ for the reason that it supported the present administration, and was supposed to get its support from the leaders of the LaFollette faction in this city, Edgerton, Beloit and the adjoining towns.

Before the paper was started the statement was made by prominent LaFollette supporters "that they would show the Whitehead people a few things when their paper was started." Now that the paper has discontinued publication it is a hopeless task to find a "Thoroughbred" or a Half-Breed that ever had anything to do with it, although it is a well-known fact that employees of the other papers here in town were approached by the leaders of the faction and offered positions on the new sheet.

It is the same old story, when the outlook is bright there are plenty of backers but when it begins to cloud up they get out from under. This is what has happened to Mr. Harmon and the Janesville Daily News. The people who brought him here, who were the first ones to go back on him when they saw their case was hopeless in Rock county.

Mr. Harmon stated that the LaFollette people offered all kinds of inducements for him to come to Janesville. It was a flourishing field and assured him their united and hearty support. After the paper was started they did not give him any support.

The editor in his last issue published last evening says:

"With today's number The Janesville Daily News suspends publication. In connection with this announcement it is only proper to say that this paper was started as a business venture, the publishers believing it to be a good opening for a permanent publication, but have found that existing conditions do not warrant its continuance. In suspending the publishers wish to state that The News was not started as a campaign sheet, the state administration having nothing to do with the venture. We fully wish for and believe in the re-election of Governor LaFollette to the governorship of Wisconsin, which position he has so ably and creditably filled."

The statement that The News was not started as a campaign sheet is absurd. One of the strongest LaFollette supporters in this city was the right hand man of the editor and offered positions to the men employed on the other papers.

At the meeting of the "Thoroughbreds" held last month at the Park Hotel, when remarks were in order Mr. Harmon stated that gathering of the LaFollette faithful that the paper would be published in the interests of LaFollette and the present state administration.

From the very start the paper has lost money. There was not enough LaFollette sentiment in Rock County to make the sheet a paying investment. It has lost at least \$1,000 during the few weeks it has been in existence, but as one LaFollette officeholder stated, it did not get any of his money, his salary was too small, but that one man, who wished to gratify a personal spite was the cause of the paper coming here, and then would not give anything towards its support. He was sorry that Mr. Harmon had not been warned before he ever came here.

Of course under the present condition of affairs, no LaFollette man will say he had anything to do with The News. The suspension of the paper is the strongest sort of an indication that Senator Whitehead will have the full support of Rock county. The LaFollette sentiment in this county must be very weak when it will allow the official organ to lose \$200 per week.

SMALL POX CASES POORLY HANDLED

Much Indignation Aroused Among
the People Against Officers of
the Health Department.

Considerable indignation has been aroused among the people in different parts of the city about the way the smallpox cases are being handled by the health officers. In the family of W. H. Hall, 12 Milton avenue, the child who was first taken with the disease, ran around the neighborhood for a week and played with the neighbors' children before he was finally quarantined. His grandmother, Mr. Hall's mother, caught the disease from him and is very sick.

There are three cases of the disease in a family named Schultz residing on Western avenue, and also a case on South Main street, just below the Kent block. The disease has not been severe this winter but there is no telling what it may be next winter. A majority of the cases in the city this year can be traced to children that have run at large when they should have been confined to the house. If the afflicted will not live up to quarantine laws they should be sent to the pest house or a guard placed over them.

ROWE WILL NOT BE A CANDIDATE

Owing to Ill Health, the Present
County Register of Deeds
Will Not Run Again.

To the People of Rock County:—While thanking my many friends for the generous support they have given me in the past, I desire to announce that, owing to ill health, brought on by reason of my close confinement, I shall not be a candidate for re-nomination to the office of register of deeds at the coming convention.

O. D. ROWE.

Gave Tokens of Love

Last Sunday at the Baptist church occurred a very pleasant affair, one which warms the human heart and makes life seem brighter. During the past ten years Mrs. A. P. Lovejoy has been superintendent of the primary department of the Baptist church, as she is to leave the city on an extended trip the pupils of her department desired to express the high regard they have for her. As a token of this respect they presented her with a bouquet of ten hand-some roses, one rose for each year of her service in the Sunday school. As a more lasting emblem of their love they also presented her with a beautiful volume of the American edition of the revised Bible. The gift was presented by the entire Sunday school and is very much prized by the recipient.

CITY NEWS IN BRIEF

The workmen engaged in grading S. Franklin street for the Beloit, Delavan Lake & Janesville line, have reached Dodge street.

The hard wind last week blew A. C. Kent's boat house from its moorings at his summer cottage, opposite Crystal Springs and blew it across the river among the stumps. The house was badly wrecked by the wind and waves.

The Northwestern road is engaged in making improvements along the Evansville cut-off. A number of the culverts are being strengthened by piling, and many of the bridges will have solid masonry supports instead of piling as at present.

Cards have been received in this city announcing the marriage of Miss Kathryn Bruce, of Madison, and Mr. George Killian, of New York City. Miss Bruce is well-known in this city having visited relatives living here. She also took a prominent part in the song recital given by Mrs. John Fuller Sweeney in the Christ Church Parish house last winter.

ROSY CHEEKS

A Sure Sign of Health.

Vinol Makes Rosy Cheeks and Rich, Red Blood.

A pale face is an indication of disease. There are many women who through overwork, worry or care find themselves in a weak, debilitated or run-down condition, which makes life a burden.

A continuation of this condition may induce lung troubles, stomach troubles, a broken-down condition of the kidneys or of the liver, or a derangement of those organs that are the source of so much suffering for women.

All such women should come in and see us, as we want to tell them about Vinol.

Vinol is not a patent medicine. It contains nothing but the curative principles of Cod Liver Oil, combined with a little organic iron and a delicious table wine, and as each of these ingredients have been used alone by our best physicians for years in treating general debility, bronchitis, consumption and all wasting diseases, it can be readily understood that the scientific combination of these three ingredients will produce wonderful results.

Vinol is especially good for women whose blood is thin and weak; it purifies and enriches the blood. It is also excellent for women who are nervous and worried because nervousness and worry always affect the stomach first, taking away the appetite, making the sufferer thin and languid. Vinol is so delicate it can be taken into the weakest stomach. The wine increases the appetite, and the medicinal elements of the cod's liver strengthens the muscles and adds flesh. Yet it contains no oil or grease and is deliciously palatable.

We know Vinol is a wonderful and powerful builder, and in advising you to take it we know what we are talking about. Vinol is what we say it is; and if you are tired and all worn out do not let another day pass without getting a bottle of it.

Come in and see us and we will convince you that we are offering you health and strength in Vinol. Your money back if you are not satisfied.

Smith's Pharmacy,

PAINE'S CELERY COMPOUND.

Is The Only Medicine That Can Promptly and Permanently Banish All Wasting and Dangerous Diseases

It Restores Lost Health When Physicians Pronounce Your Case incurable

If, in springtime, sick people, young and old, act with promptness, wisdom and decision, suffering, agony, and misery would never be carried into the summer months.

To delay the work of banishing disease, regulating the nerves, purifying the blood, and restoring perfect digestion is a serious mistake.

When the Blood is sluggish, impure, and poisoned, when the nervous system is unbalanced, when digestion is deranged, and the appetite poor and variable, be assured your condition is critical, and calls for instant attention before the summer months bring additional danger.

At this time the use of Paine's Celery Compound will do a marvelous work for every run down, sick, and diseased man and woman.

Its life giving work first commences with the blood, which is made clean and pure; then the nerves are quickly set in order, digestive vigor is fully restored, the appetite is made natural, sleep is refreshing, and the despondent heart is made light and joyous.

It is well to bear in mind that Paine's Celery Compound owes its origin to the most distinguished physician that this American continent ever produced, and his marvelous prescription is publicly endorsed by our best and ablest physicians.

If all sufferers who have been disappointed in the past will promptly start with Paine's Celery Compound, they will be astonished and delighted with the speed with which this wonderful remedy is able to call a halt to wasting and dangerous diseases. It is now making tens of thousands well and strong, and fitting them to enjoy the summer months which, to the well and strong, are pleasurable and happy.

WILL IMPROVE MILTON AVENUE, IN SPITE OF PROPERTY OWNERS

City Council Also Approved of the Proposed Extras on the New City Hall, Cost Valued at Over \$4,000.—Routine Business of the Meeting.

In spite of objections on the part of the property owners along Milton avenue, against the improvement of the street, the highway committee of the common council at its meeting last evening, recommended the adoption of the plans and specifications and the report of the street assessment committee in regard to the street. The report of the committee on Prospect avenue was laid over until the next regular meeting.

Mayor Richardson presided at the meeting and all of the aldermen were present with the exception of Lowell, Judd and Murray, who are out of the city.

The reading of the minutes was dispensed with. The bonds of the new city officers elected by the council were referred to the judiciary committee, who later reported them in due form and sureties good and they were accepted.

The report of the street assessment committee on the improvement of Milton and Prospect avenues was read and the objections to the improvements by the property owners both written and verbal were referred to the highway committee.

E. D. McGowan was present at the meeting and addressed the council in behalf of the property owners along Milton avenue. His main objection was the cost of doing the work and the manner of assessing the property. He claims the street was in good condition and on account of the large quantity of gravel put on the street at the expense of the city, it was one of the best streets leading out of town. The bad places in it could easily be repaired with crushed stone and the street as a whole did not need improving. He also objected to the assessment of the property on the ground that the statutes did not allow an assessment to be made against property that more than equalled the benefit. The property owners considered paying a small benefit and the assessment was far in excess of the benefits. He asked the council to withhold the paving resolution or review the assessment before legal proceedings were begun.

Wm. Eldredge wanted the statements made before the street assessment committee to stand for the council.

Both reports were referred to the highway committee and after a short recess, they recommended the adoption of the plans and specifications, and the final report of the street assessment committee for the improvement of Milton avenue. The report was adopted.

The resolution of the street assessment committee fixing the benefits and damages for the work was also adopted.

The report on Prospect avenue came up and was laid over until the next meeting of the council.

The finance committee reported favorably on a lot of bills and the clerk was instructed to draw orders on the city treasurer for them when there was money in the respective funds to which they belonged. The C. M. & St. P. R. R. was given a rebate of \$41.17 for taxes wrongly assessed. The city treasurer was instructed to transfer about \$3,400 from a number of special street funds to the general fund.

The mayor was instructed to borrow \$500 and place it to the credit of the fire and water fund.

Ald Gilkey stated that the city building committee had a meeting on April 26 in regard to the alterations in the city hall. The committee approved of changing the wooden stairs for iron stairs with marble steps and marble wainscoting. James Row-

son & Son agreed to make the change for \$4,000. He stated that O. P. Nowlan had figured on the job and considered the price all right. The committee also made a report the price of extras up-to-date and the report was ratified by the council. The report was:

New Extras to Cost \$4,000.
To the mayor and Common Council:

The committee on public buildings would respectfully report that at a meeting thereof held on April 26, it was decided to recommend to the common council for approval an alteration in the specifications for the construction of the city hall, by substituting iron stairs with marble steps in place of wooden stairs in the main stairway, and also marble wainscoting and base in place of wooden as provided in the plans and specifications.

We have instructed the architects to prepare a plan in detail covering these alterations and also have requested Mr. O. P. Nowlan, the superintendent, to procure figures on the same and we have received a proposal from the contractor to make these alterations in the plans prepared by the architect, at an extra cost of \$4,000 and believing that it is for the best interests of the city to make these alterations at this time, we would recommend that said alterations be ordered and approved, upon the condition that the contractor be required to obtain the consent of his sureties in writing that such alterations and changes be made as required in the specifications, and that the mayor be authorized and directed to execute a contract for such alterations upon the part of the city.

Cost of Extras Done
Alderman Gilkey presented the following resolution regarding extras that have been done, and this with the building committee's report passed, all the aldermen voting aye.

Resolved—That the action of the committee on public buildings in making the following alterations in the plans and specifications for the construction and completion of the city hall at the prices hereinafter mentioned and agreed upon with the contractor be and is hereby ratified, adopted and approved, upon the express condition that the contractor be required to obtain the consent of his sureties in writing that such alterations and changes be made to wit:

Putting in extra joists on first floor.....	\$ 15.00
Putting in extra iron beam.....	35.00
Making change in door.....	6.00
Putting in 1784 feet concrete in foundation.....	536.40
Putting 1200 feet rubble stone in foundation at 16c.....	307.33
Putting in 133 yards excavation foundation at 30c.....	39.90
Putting corner stone in place.....	223.00
9,307 extra brick in making 8-inch wall to 12 inch.....	111.68
Change in stone cornice and copper gutters.....	4,289.47
In plastering chimney stack.....	10.00
In enlarging two brick ventilators.....	10.00
Making change from common glass to plate.....	710.00
	\$2,765.88

The street commissioner was instructed to go over all the maccadam work and repair it.

The city clerk was instructed to advertise for sealed bids for furnishing the city with lumber and sewer pipe for the ensuing year. The highway committee were asked to get figures on two car loads of paving brick for building side walks.

New lots were ordered in front of lots 68, S. & B. addition on North Jackson street a part of lot 7, Section 36, town 3, range 15.

A brick cross walk was ordered built across North First street on East side of Madison street.

When public endorsement is made by a representative citizen of Janesville the proof is positive. You must believe it. Read this testimony. Every backache suffered, every man, woman or child with any kidney trouble will find profit in the reading.

John M. Stetson of Hotel Myers day clerk says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes violent, sometimes a dull grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Kodol Digests what you Eat Dyspepsia Cure

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fall in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

That Gold Spoon.

There are some men who seem to be favorites of fortune. They are industrious, cheerful workers, full of overflowing of the energy of splendid health, and success seems fairly to drop into their hands. It is of such as these that the less hardy and less successful man says enviously, "That fellow was born with a gold spoon in his mouth."

And yet on analysis it will be found that this success is largely due to a splendid health, the endowment of a healthy mother.

Dr. Pierce's Favorite Prescription gives the mother health to give her child. It cures nervousness, nausea and sleeplessness. It makes the body comfortable and the mind content. It gives physical vigor and muscular elasticity so that the baby's advent is practically painless.

"I will endeavor to tell you of the many benefits I have derived from taking Dr. Pierce's Favorite Prescription," writes Mrs. B. E. Robertson, of Medicine Lodge, Barber Co., Kans. "In the fall of 1899 I was expecting to become a mother and suffered terribly with pains in the back of head; in fact I ached all over. Suffered with awful bearing-down pains; I was threatened with miscarriage. A lady friend told me to use Dr. Pierce's medicine. She had taken them and felt like a new woman. I began using the 'Favorite Prescription' and took four bottles before my baby came and two after wards. I suffered almost death with my other two children, but hardly realized that I was sick when this baby was born and she weighed twelve and one-quarter pounds. She is now eleven months old and has never known an hour's sickness; at present she weighs thirty-seven pounds. I owe it all to Dr. Pierce's Favorite Prescription."

"Favorite Prescription" makes weak women strong, and sick women well. Accept no substitute for the medicine which works wonders for weak women. Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

B. P. Crossman,

SHIP MERGER STIRS CANADA

Fear That Emigrants Will Be Diverted to the United States.

MAY SUBSIDIZE STEAMSHIPS

Feeling of Satisfaction Prevails in English Shipyards Over Prospective Adoption of a Free Ship Bill by the American Senate and House.

London, April 29.—Canadian officials are highly excited over proofs received at the emigration office that the shipping combination, with the two Canadian lines in it, is already interfering with the systematized operations of the highly successful immigration bureau. Commissioner Preston confirmed the report that two representatives of the shipping ring had threatened to divert emigration from Canada to the United States unless the work of subagents appointed throughout the United Kingdom for promoting it and who work without prejudice to any line were restricted.

Mr. Preston stated to-day that important correspondence on the subject would arrive at Ottawa next Thursday, showing that the ring is seeking to control rates of passage to Canada and interfere with the wise policy which has led to an enormous increase in inquiries and departures of British settlers. He predicted that the interference of the shipping ring with the immigration business would be followed inevitably by the creation of a Canadian subsidized line for carrying immigrants, and the British government would assist in the defense of Imperial commerce.

The subject will be brought up before the Chamberlain conference with the colonial premiers after the coronation.

The most significant feature of the shipping excitement is the silence prevailing in the shipyards at Belfast, on the Clyde, and on the Tyne. There are no orders from British shipbuilders when it is suggested that the United States may adopt a free ship bill and take over the European merchant fleets. The truth is discerned that the Morgan combination is not helpful to the shipbuilding interest of Philadelphia and other American ports, and that the adoption of a free ship policy would be a tremendous gain for British yards.

The excitement caused by the shipping deal is subsiding, owing to the maze of contradictions and the lack of authentic information. A sense of irritated uneasiness remains, for the independence of the British commercial marine is a national tradition well-nigh sacred; and even if the Cunard and White Star lines in joining the American-Canadian-German coalition keep the same flag afloat, the grip of a foreign money power is dreaded as a source of danger in time of war.

The fresh series of questions asked parliament yesterday threw little light upon the subject, but disclosed the fact that the government was fully alive to the importance of establishing safeguards against a transfer of the subsidized British ships to a foreign flag. The heads of the admiralty and board of trade have been consulting, and there is likely to be something more than a reappointing of the committee on steamship subsidies. Mr. Arnold-Forster is both a naval expert and a man of energy, and important action is foreshadowed.

Whatever may be the real force of the equivocal denials of the steamship owners at Liverpool, it is clear that Germany has a more direct control over her merchant marine than the British government exercises. It is also plain that the German lines, while not changing ownership, have made a definite agreement with the Anglo-American coalition respecting future operations. It is a natural inference that the English lines have either accepted foreign regulation and direction or are likely to do so.

AMUSEMENT NOTES.

Richards and Pingree's Georgia Minstrels gave a good performance at the Myers Grand last evening to a fair house.

The theatre-going public will hail with delight the good news that our old friend "Uncle Josh Spruceby" is to visit us on Thursday. This company, which has made an exceptionally strong impression wherever it has appeared, has many friends here who will await their coming with interest. The organization this year is better than ever, all the old favorites being retained and capable new ones added, and now ranks with the best theatrical companies touring the country. The play is one of the homely New England dramas with a beautiful story running through it. Comedy, pathos, and sensation abound.

GOVERNOR YATES IN A WRECK

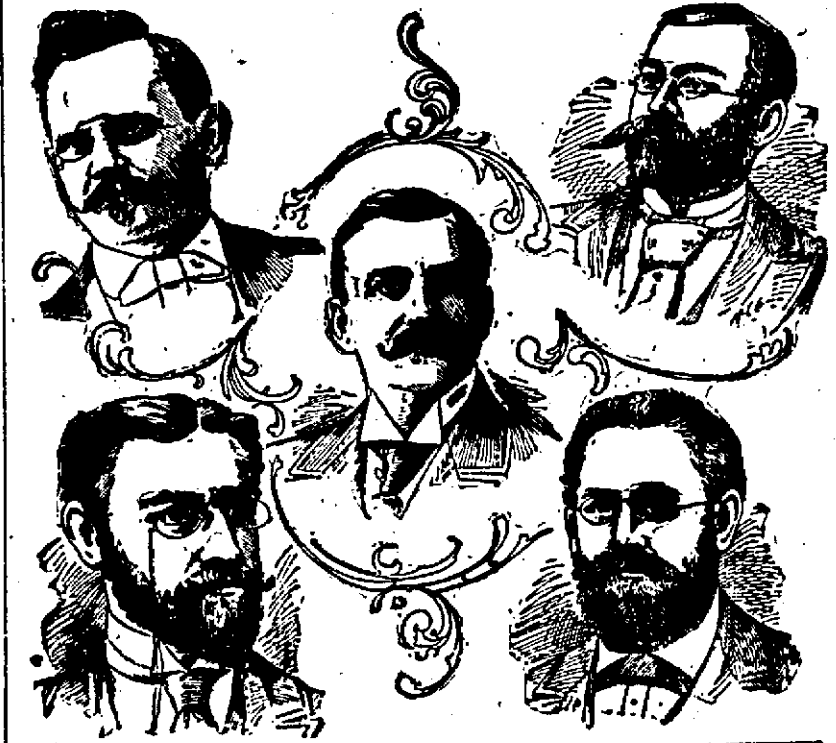

Illinois Executive Thrown from His Berth by Collision.

Springfield, Ill., April 29.—A Chicago & Alton coal train ran into the rear end of an Illinois Central train in the Illinois Central yards in this city and demolished the end of the sleeper "Thebes," in which were Gov. and Mrs. Yates, who had just returned from Chicago. Gov. and Mrs. Yates and other passengers were thrown from their berths, but no one was seriously injured.

Five Children Burn to Death.

Winnipeg, Man., April 29.—The house of Jean Baptiste Monahan, a butcher, was destroyed by fire and five children—four girls and a boy—were burned to death. Another daughter is dying and the father and mother are in a serious condition.

Train Kills Three.

Joliet, Ill., April 29.—Three persons were killed at the Patterson road crossing of the Santa Fe road just south of Joliet. A fast passenger train crashed into a buggy containing Mrs. M. B. Mulock, her daughter, Orda, and Floyd C. Pearce.

Killed from Ambush.

Manila, April 29.—Five men of the constabulary have been ambushed at San Juan del Monte, near Manila. One of the party was killed and one injured. A force of constabulary is scouring the neighborhood for the bandits.

Eighty Million Copper Company.

Trenton, N. J., April 29.—The United Copper company, with an authorized capital of \$80,000,000, was incorporated here. The company is authorized to mine, melt and manufacture copper, gold, silver and other metals.

Merchant Commits Suicide.

Danville, Ill., April 29.—John Palmisano, a fruit and commission merchant of Lincoln, Neb., walked into an open space between the tracks of a railroad bridge over Stony creek and fell thirty feet to the rocks below.

Queen Wilhelmina Doing Well.

The Hague, April 29.—The bulletin posted at Castle Loo announced that Queen Wilhelmina passed a quiet night, that her mornings are feverish and that her evening temperatures are decreasing.

Storm Kills Thousands of Sheep.

Cheyenne, Wyo., April 29.—Reports received from various sections of the state indicate that the unexpected storm last week killed 12,000 or 13,000 sheep, the losses running from 2 to 10 per cent.

More Shocks at Shamaka.

St. Petersburg, April 29.—The town of Shamaka, in Trans-Caucasia, which recently experienced a disastrous series of seismic disturbances, was severely shaken again Sunday night. A slighter shock followed the first earthquake.

Grain Palace Burns.

Aberdeen, S. D., April 29.—The interstate grain palace exposition building, together with two residences and large barns, were destroyed by fire. The loss is \$20,000.

Fatally Hurt in Runaway.

Clinton, Ia., April 29.—While at a funeral a team of horses ran away, fatally injuring Mr. and Mrs. Adam Snyder, well-known residents of this city.
